DETAILED ACTION

Drawings

1. The newly submitted drawing depicting Fig. 8 is an informal illustration. Applicant is requested to submit a formal version of fig.8.

Specification

2. The amendment filed 5/02/2006 is objected to under 35 U.S.C. 132(a) because it introduces new matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows:

- The rudder being an inboard rudder, as set forth in claim 1.
- The rudder being a non-motorized rudder, as set forth in claim 8.

Applicant is required to cancel the new matter in the reply to this Office Action.

3. The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o). Correction of the following is required:

- The rudder being movable via a translational movement of steering linkage bar, as set forth in claim 8.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Art Unit: 3617

5. Claims 1-7, 10-12 and 15-17 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification, **as originally filed**, in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Claim 1 recites the rudder as being an inboard rudder. However, the original disclosure is silent on the rudder being an inboard rudder.

Allowable Subject Matter

6. Claims 8, 9, 13, 14 are allowed.

7. Claims 1-7, 10-12 and 15-17 would be allowable if the rejection(s) under 35 U.S.C. 112, first paragraph, set forth in this Office action is overcome.

Response to Arguments

8. Applicant's arguments with respect to claims 1-7, 10-12 and 15-17 have been considered but are moot in view of the new ground(s) of rejection.

Argument: Regarding the amended Specification and Claims reciting the rudder as being non-motorized as well as being inboard, Applicant has argued that the such characteristics are inherent in the art recognized definition of a rudder. Therefore, such amendment does not constitute new matter.

Response: Applicant may note that there are distinct categories of non-motorized and motorized (assisted) rudders, such as shown in US 5,782,195 A. Further, the term "rudder" does

Art Unit: 3617

not inherently suggest an inboard rudder. In fact, outboard rudders are old and well known in the art, as shown in US 3,221,699 A, US 3,461,831 A or US 3,838,660 A. Because the original disclosure is silent on the rudder being a motorized or an inboard rudder, inclusion of such limitations is considered to be new matter.

9. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
